ACT QUICKLY

Do the right thing at the right time.

Act quickly in time of danger.

In time of kidney danger, Doan's Kidney Pills are most effective. Ask your neighbor.

Plenty of Norway evidence of their worth.

Albert F. Prescott, shoemaker, Crockett's Bridge, Norway, says: "My kidneys gave out and I had backache so bad it put me past going for several days. I couldn't bend over, I was so stiff and lame. I was working in the ship yards at the time and I blame so much heavy lifting for the starting of my trouble. I had to get up several times during the night to pass the kidney secretions. I felt drowsy all the time. Finally I went to Stone's Drug Store and got three boxes of Doan's Kidney Pills and began using them. This remedy reached my case at once and after using three boxes, the trouble left me entirely. I have felt fine ever since. I can't recommend a better remedy than Doan's Kidney Pills."

Prices 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Prescott had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mrs. Martha Bennett

Mrs. Martha Bennett passed away at the home of her daughter, Mrs. Ethelbert Bennett, in Sweden, April 23, after a long illness. Although at times a great sufferer, she never complained, but showed that Christian fortitude which through all of her life had sustained her in every time of trial.

Mrs. Bennett was born in East Denmark on Nov. 8, 1845. She married Frank C. Holden in 1873 and came to live in Sweden. Her twin sister, Mary, married Benj. Holden of the same town. Her sister's death preceded her own by about three weeks.

Three children were born to Mr. and Mrs. Frank Holden, Bertha G., now of Lynn, Mass.; Eva H., and Frank D. of Sweden, all of whom survive. Mr. Holden died while the children were quite young.

In 1884 Mrs. Holden married George M. Bennett of Sweden. There was one daughter by this marriage, Susie M., who became the wife of Walter Evans. This daughter died at the age of 31 years. She was never very strong and her mother was able to care for and assist her in many ways which was a great comfort to both. Mrs. Bennett was a most devoted, loving mother, whose first thought was always for her children, though she was ever ready to help others in time of need as far as lay in her power. More fortunate than many, she was spared the uprooting which is hard for most elderly people, for she was never required to leave her pleasant hillside home, overlooking the little lake with the beautiful view beyond. Her son, Frank D., remained on the old homestead and with his wife, who was Nora Chandler, gave the mother most kind and loving care. Mrs. Bennett had spent the past three winters with her daughter, Eva, whose home was near, and was with her when the summons came to "Come Up Higher." Each summer she had returned to her old home and it was here that the funeral services were held, conducted by the Rev. W. N. Farr of the M. E. Church to which Mrs. Bennett and her sister had belonged for many years. Besides her children there are left two grandchildren, Christine Holden and Chas. Bennett, Jr., two brothers, Walter Berry of Bridgton and Osborne Berry of Lewiston, also neighbors and many friends to mourn her loss. Many beautiful flowers bore their tribute of love and respect for the dead and of sympathy for the living.

During the last week of her sickness, Mrs. Bennett repeated part of Romans 8, 38-39 and these passages happened to be read at her funeral. Bertha Holden came from Lynn and Walter Evans from Lancaster to attend the service.

Why Pick On Your SHOE DEALER

It is a well known fact that tanners and most shoe manufacturers have taken enormous losses. One tanner alone lost \$6,000,000.00 last year. Shoe retailers all over the country are marking down their shoes to replacement cost. Nevertheless, the woods are full of amateur economists WHO CLAIM PRICES OF SHOES WILL SHORTLY RETURN TO PRE-WAR LEVELS, BUT WILL THEY? YES, THEY SURE WILL:—

When hard coal is back at \$9 per ton;
When railroad fares are back at 2c per mile;
When house rent is back at \$10 per month;
When gasoline is back at 10c per gallon;
When telephones are back at \$1 per month;
When a square meal is back at a quarter;
When farm labor is back at \$25 per month;
When gas is back at 90c;
When shaves are back at 10c;
When the freight from N. Y., now \$1.84, is back at 97c;
When street car fares are back at a nickel;
When money is back at 5 per cent;
When cooks are back at \$5 per week;
When hair cuts are back at a quarter;
When movies are back at a nickel;
When a car-wash is back at a dollar;
When ice cream is back at a dime;
When a doctor's call is back at one buck;
When a newspaper is back at a penny.

For the love of Mike, why expect the manufacturer, wholesaler and retailer of shoes to go the route alone? Aren't we Americans all in on this proposition together? Haven't we got to work it out together? Well, then, haven't the manufacturers, wholesalers and retailers of shoes gone much faster and much farther than the average in reducing prices and making readjustments? WE'LL SAY THEY HAVE. We're ahead—way ahead of the procession. Now let the barbers and the movie houses, and the Standard Oil, and the soft drink parlors, and the landlords, and the hotels and restaurants, and the draymen, and the bankers cut THEIR prices and catch up with the shoe men.

DENMARK

An Auto Trip to Harper's Ferry and Fredericktown
Along the Frederick Pike, through the counties of Baltimore, Howard, and Frederick, Mrs. Edwin Pingree of Denmark and her granddaughters, Edith Woodward and Hope Pingree, saw many things of interest. There are all the way, great stretches of unbroken and fertile farming lands that were never more attractive with their green wheat fields and blossoming orchards. Great estates and well tilled farms suggest prosperity and contentment everywhere. Carrollton Manor, the home of one of the signers of the Declaration of Independence is situated along this highway. But it is Frederick county itself that delights our tourists most. There the beauties of nature are not less, but the historical features are more pronounced. Fredericktown, the county seat, lies in the great limestone plain of unsurpassed fertility, and is styled by Whittier as a city "Green walled by the hills of Maryland." Here they see the terminus of the original Baltimore and Ohio railroad, the first one in the country, and the first to have a telegraph line. The great stone bottle in the masonry of the bridge over the Monocacy river, marking the location of a battle, said to be the turning point of confederate advance toward Washington, they note with unusual interest. Within the city landmarks such as the old stone Barracks built in 1750, the "Stonewall" Jackson tree where the general tied his horse at one time when the place was occupied by the southern army, and the sight of the Barbara Fritchie house, all testify to deeds of past generations, of which their descendants are rightly proud. One loves to dwell upon the patriotism and courage of the immortal Barbara, and to remember how a lone and venerable woman dared to defy an army with her flag, and in the face of concentrated fire of enemy bullets, calmly uttering the admonition now on the tongue of every schoolboy in the land, "Shoot if you must this old gray head, but spare your country's flag!"

Then out in Olivet cemetery over the grave of Francis Scott Key stands the great monument and statue of the author of our national anthem, "The Star Spangled Banner," written on board a British battleship during the bombardment by night of Fort Mifflin, near Baltimore, in the 1812 war. West of the town we have the spring at Braddock Heights where the English general by that name obtained water for his army on the long march through the wilderness to western Pennsylvania, at the time of the French and Indian war. And still farther on, across the mountains of the Blue Ridge, at Antietam, the so called bloodiest battle of the Civil war was fought.

Being unable to see anything of interest, our travelers omitted the latter points but headed southwest toward the Harper's Ferry, the scene of much fighting during the war, as well as the base for the misguided, but well purposed John Brown. An hour's ride over perfect but hilly roads, brought the party to the junction of the Potomac and Shenandoah rivers, which marks the corner of three states, namely, Maryland, Virginia and West Virginia. Here on every hand rise great mountains and flow great rivers. Great bridges span the rivers, and a great railroad tunnel through the mountain permits train passage from Washington to the West. No less than four bronze tablets furnish tourists with information of Civil war happenings at this point, and a monument stands to the memory of John Brown. Although the vertical cliffs offer perfectly good natural galleys, yet our folks were informed that the great reformer was taken to Charles town for execution. Down the valley of the Shenandoah, which has its northern terminus here, is situated the town of Winchester made famous by General Sheridan's strenuous ride. But a single day soon passes, and with Baltimore and home seventy-five miles away the party turns back down the street where a crowd once assembled to listen to a Fourth of July address by Thomas Jefferson delivered from still another street almost vertically above, and to a height of some seventy-five to a hundred feet.

Unicorn Dairy Ration

"You can fool a man, but you can't fool his cow!"

It is not the cost of a feed that is killing the farmer and reducing his profits. The real source of his trouble is his failure to run his cows to full capacity and feeding them right and decently. Cows that could give 40 lbs. of milk are running on a 20-lb. basis, and cows that could make 30 lbs. are running on 15.

The reason dairymen continue to use UNICORN is because they get enough more milk and enough more profit out of it to make it worth their while.

Which Battery?

You won't be satisfied with a car unless you are satisfied with the battery.

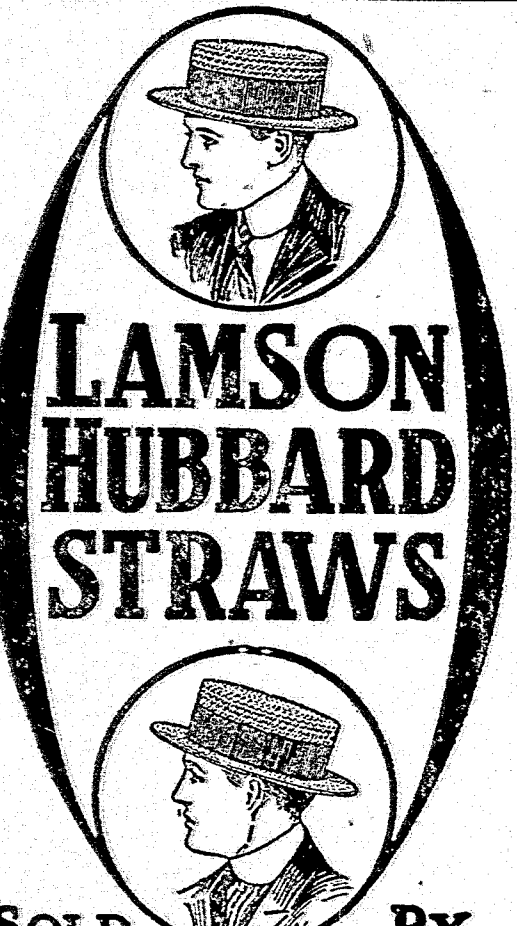

The Willard Threaded Rubber Battery not only gives the right service to begin with, but keeps on giving it, and actually outlasts the battery plates.

The plates are insulated—not merely separated. And the Threaded Rubber Insulation neither warps, cracks, nor punctures, because unlike wood separators, it is not affected by battery acid.

MY DAYS AND NIGHTS IN THE HOSPITAL

No. 7

The first room I was in at the hospital faced west, the last east. Across the corridor, when the bath room door was open—my door was always open—a splendid view of the country could be seen away to the White Mountains. From my cot I could see a mass of buildings, one of which was a large tenement house, and when able to sit up, a part of Western Promenade. I came to note in my two months' stay there all the architectural features of the buildings within the angle of my vision. A short tower with a part of a chimney on another building strangely reminded me of my friend, Charles A. Frost, our Norway carpenter, at work on the roof of a building, and my thoughts would drift to him and my pretty little office building he built for me. And how often I wished at such times that I could be at home and occupy it.

On clear mornings the rays of the rising sun shone directly on my cot. I noted the radiant glow of the sky and the coming up of the sun, and several times it rivalled the sunrise from the top of Mount Washington as seen by our party of C. B. Cummings, George I. Cummings, Wilbur Farrar, Howard Moulton and myself several years ago. I often thought of the funny story the older Mr. Cummings told me after we had passed the "spur" above the half-way house. The wind blew a gale through the great gulf, and we had to stop often till we passed it and sit down and take breath. He has gone to a better land and left a very pleasant memory behind. Mr. Cummings and his family from my first coming to Norway have been my closest friends. I never gave an official bond without one or more of them being on it.

This reminded me of the late John A. Bolster. He was one who always signed my bonds. When he signed the last one he was getting feeble and I said to him that perhaps he wouldn't care to have his name on that one. "Yes, I would," he replied, "and if you hadn't asked me, I shouldn't have liked it." Such is the confidence that some of the men I know best have in me. No one can measure the comfort that the recollection of such trust and confidence gave me on my sick cot.

One dreary afternoon, when occupied with gloomy reflections, a bright pleasant face and shining expressive eyes peered into the doorway of my room. Miss Ruth Cummings had come to the city on some business relating to a musical entertainment, and having a few minutes to spare, had come to the hospital, to express her sympathy. Her call cheered me through all the rest of that day and many times thereafter. I may perhaps be prejudiced in her favor, but really, does anyone know of a brighter, smarter or finer girl?

The first year that I was clerk of the courts, I put up my team and took my meals at James L. Chase's on Paris Hill, which was the old Hamlin place, the home of Dr. Cyrus Hamlin, the first clerk in Oxford County, and where Hamlin Hamlin, Vice President, was born. The new court house was being built at South Paris into which we moved in December. I cherish the sentiment that the first and last clerk of the courts while they were held on Paris Hill, stayed at the same place. Mr. and Mrs. Chase had three interesting children, a boy Willie, and two girls, Louisa and Susie. I became greatly attached to them. They are all living at Mechanic Falls except the older girl and her family, and are married. Willie has become a physician and has a private hospital at the Falls. From them I received flowers and other testimonials of sympathy, which I prize very highly. Some ties of friendship are never broken.

THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

How you can measure tire value in 1921 —

"Any U. S. Tire is a universal full-money's worth."

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the

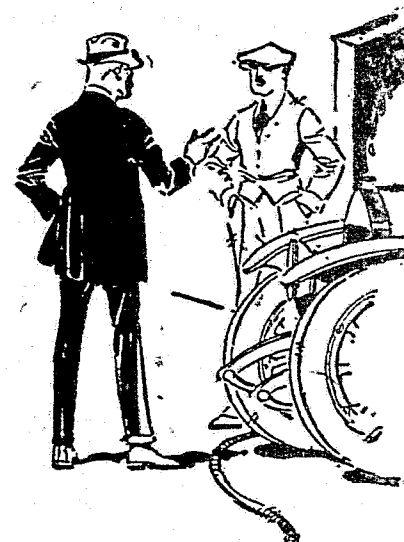

country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

Presented Flag

At the regular meeting of T. A. Roberts, W. R. C., on Saturday afternoon, a very interesting program was presented by the Corps and visitors. A beautiful set of colors were presented to Elmer D. Anderson Post, American Legion, they being present in a body. Mrs. Ethel Coulton, Senior Vice President of the Corps, gave the address of welcome, Arthur A. Walker, the response. After singing of the Star Spangled Banner, Commodore A. J. Holden and J. F. Fuller of the G. A. R. were escorted in with the colors, standing at attention while the President of the Corps, Mrs. Etta Curtis, made the presentation speech, after which the flags were given into the hands of the commander of the Legion Post, Thomas Vanigan, and Vice Com. Hunting. The commander accepted the gift with well chosen words.

Seven G. A. R. veterans were present and made some remarks. Quartermaster A. J. Holden of the T. A. Roberts Post, G. A. R., in behalf of the Post presented the Legion Post with the Bible, which had belonged to the G. A. R. veterans since its organization. Several readings and singing helped make up the program, after which a fine lunch was served. A large audience was present, who gave generous applause to the patriotic speeches by the speakers.

Some excitement was raised Sunday afternoon, by a fire which started on the plains near the new federal road, but was soon under control.

Miss Howard of Norway gave a talk on missions at the M. E. vestry on Sunday evening, which was interesting and held the attention of the large audience present. Mrs. Joslin came with Miss Howard and favored the audience with a fine solo.

Next Sunday morning, a union service will be held in the M. E. church at 10.45. Frances Adams, the evangelist, will conduct the service.

A. J. Holden recently received a copy of Sprague Magazine containing an article on the early history of the town of Oisfield and the family of David Ray and John Holden, who were among the first settlers. This story of these prominent families of other days is of much interest. The author is Charles F. Holden of Portland, a member of the Sons of the Revolution.

BRYANT'S POND

Mrs. George Forbes and two children, Ruth and George, spent the day with Mrs. Eva Thus, in South Paris recently. T. E. Thompson and son, Clem, from Portland, visited his brother, Edward, of Bryant Pond.

Albert Farnum and wife attended the grange members Saturday evening at Bryant's Pond, the first time in nine years.

Franklin Grange No. 124 Contest closed May 7 with an attendance of 112. Mrs. Amy T. Forbes, captain No. 2, won by 9466 points ahead. The next meeting will be an all day contest, dinner furnished by the defeated side. It is hoped that the attendance won't fall short in the future, but prove that the captains have not worked in vain to revive the interest. Some of the old members responded very well by attending, which was appreciated. The secretary, Quimby Farnum, appreciates the fact that so many dues were realized.

Archie and Lena were home over Sunday with their mother, Mrs. Emily J. Felt.

Mrs. E. M. Gety, Mrs. C. R. Upton's aunt, who is staying with her for a while, went to Auburn, Saturday, for a visit with her sister, Mrs. Annie Harris.

Mrs. Emma Gorman has gone to her home and Mrs. Lalia D. Estes has gone to work for Mrs. Angie Berry, where Mrs. Gorman has been all winter.

Rev. C. R. Upton and wife, Mrs. G. V. Stenning and Mrs. Emily J. Felt attended the Sunday School Association at West Paris, May 6.

High School Play

The annual play of Woodstock High School is to be given in Dudley Opera House Saturday evening, May 14, at 8 p. m.

It is a radical departure from the usual rural comedy. It is a play representing modern New York City life and is entitled "A Regime of the City." Leland Morse and Raymond Farnum take the parts of the two husbands who constitute the regiment of two. Christine Willard and Charlotte Douglass take the parts of the two wives who have been shamefully deceived by their husbands. Charlotte Cummings takes the part of the daughter who is sought in marriage by an English lord, Harry Packard, while the third corner is given to the love affair by Clyde Brooks. Other contrasting characters are those portraying a wealthy Texan, taken by Lewis Tirrell; a German plumber, Roydon Billings, and a German maid, Martha Brooks.

The proceeds of the play go directly to the senior class to help them defray the expenses of their graduation. The drama will be followed by a dance.

SOUTH PARIS

Paris Grange

Paris Grange met Saturday, May 7, for an all day meeting, all officers present except one. West Paris, West Sumner and Hebron Granges were guests for the day. There were also visitors from Sweden, Oxford, Frederick Robie, Norway, East Sumner and Thorne's Corner Granges. About 250 sat down to dinner and over 300 were present in the afternoon.

The third and fourth degrees were conferred on four candidates by the degree team. Seven applications were received. An interesting program was furnished by Lecturer Eva Record, consisting of violin instrumental and vocal solos, negro character song, readings and remarks by County Agent Raymond Lovejoy.

Next meeting, May 21, starts the contest.

WEST SUMNER

Pleasant Pond Gleaners held semi-annual fair May 11, Wednesday afternoon. Supper was served from 6 to 8 followed by an entertainment and dance.

James Tuell has purchased a Ford auto.

R. P. Bowker is sick with grip. James Boyle is painting for Mrs. Ella Chandler.

HER HOPE IS NOW FULLY REALIZED

After Ten Years of Suffering Mrs. Hamel Recovers Health by Taking Tanlac

"My hopes of being restored to health have at last been fully realized," said Mrs. Aurora Hamel, of 421 Spruce St., Manchester, N. H.

"For ten years I have been in bad health suffering with my stomach, kidneys and nerves. I never wanted to eat anything hardly and my digestion became so bad that even milk disagreed with me. Gas would form on my stomach and press around my heart so bad it seemed to shut my breath off and I had to be continually struggling for air. My kidneys bothered me constantly and my back ached just about all the time. I was badly constipated and at times became so dizzy I had to hold on to the furniture for support. My liver was sluggish and I felt tired out all day long. My sleep was never sound and I was so nervous and restless I often couldn't remain in bed. Naturally, I became so weak and run down it was an effort for me to do the least thing around the house."

"Several months ago I started taking Tanlac and I am delighted with the results I have received. My appetite is just splendid and everything I eat agrees with me perfectly and tastes good. My kidneys and liver are both in good condition and I don't know what it is to ever have a pain in my back. I am not constipated and am free from spells of dizziness. My nerves are quiet and steady and I get good sound, restful sleep every night. SUPREME COURT

May Term
The May term of the Oxford county S. J. Court opened at Rumford Tuesday with Justice Philbrook presiding. The greater part of the time was occupied with calling the docket. The jury did not report until Thursday.

Several important cases are listed for trial this term, which is expected may last at least three weeks.
An alienation of affections case, Ada R. Howard vs. John Howard, in which the plaintiff seeks damages in the amount of \$10,000 promises to attract wide interest. The husband has also instituted divorce proceedings against his wife.

Another important case is that of Frederick L. Ray of North Waterford vs. E. I. Dupont, Deacons and Co. This action is brought to determine certain divorce rights. Some \$5000 is said to be involved.

On motion of Attorney Peter McDonald, William J. Flannagan was admitted to the bar. Mr. Flannagan is a native of Lowell, is a graduate of the University of Maine Law School and served in the world war. He has resided at Rumford about a year.

Dividends Backed by More Than Property

An investment which Maine folks consider as safe and as permanent as Maine's hills is the 7 per cent. Preferred Stock of Central Maine Power Company.

Behind their investment in this preferred stock is physical property with an estimated replacement value of over \$25,000,000.

This service must ever continue.

More than the mere physical plant—the power houses, dams, lines, buildings—beyond even this permanent property—is, as a part of the security the investor can look to, the essential service that this Company supplies to the people.

The investor in our securities can contemplate that he is investing in a business that is, of necessity, permanent. Surely he can contemplate that the security for his investment is greater than the security of any private activity.

Is not such a security the ideal one for Maine people?

The price is \$107.50 a share—the yield is 6½ per cent. net.

The Kodak Anastigmat Lenses are made to exactly fit Kodak requirements. They are, in each case, designed with particular reference to the size and type of Kodak and shutter that they are to be used with. The f.7.7. on the 2c Kodak has more speed than the best rectilinear lenses and at least equals the best anastigmats in depth and sharpness.

The Kodak Ball Bearing shutter has speeds of 1-25, 1-50 and 1-100 of a second for "snap-shots," has the usual time and "bulb" actions for prolonged exposures.

The No. 2C Junior is covered with grain leather, is finely finished, is simple in operation and, with the Kodak Anastigmat lens, produces negatives having that crispness and sharpness that are characteristic of the true anastigmat.

Let us show you the big value this Kodak offers

SPRING DEBILITY

Loss of Appetite, That Tired Feeling and Sometimes Erections.

Thousands take Hood's Sarsaparilla as a spring medicine for that tired feeling, nervous weakness, impure blood and say it makes them feel better, eat and sleep better, and "makes food taste good."

Spring debility is a condition in which it is especially hard to combat disease germs, which invade the system here, there and everywhere. The white blood corpuscles, sometimes called "the little soldiers in the blood," because it is their duty to fight disease germs, are too weak to do good service.

Hood's Sarsaparilla strengthens the "little soldiers" and enables them to repel germs of grip, influenza, fevers and other ailments; relieves catarrh and rheumatism. It has given satisfaction to three generations. Get it today, and for a laxative take Hood's Pills.
